

PARASOLS

Our selection of parasols and giant umbrellas is one of the largest in the UK. Products available both from stock and also bespoke manufactured to suit all situations, clients and budgets.

Eden offer a standard 3.0m aluminium mast parasol, a 2.1m wood mast parasol and our Milan parasol in both 2.5m Square and 2.5m Round. All of these are available in a range of colours.

In the larger sizes we stock our 4m Square Salisbury and our 5m Round Catterick – both with a choice of five different colour canopies. These are great value for money and ready for immediate delivery. Bases for all our parasols are also available.

We also offer a range of bespoke parasols from a German manufacturer. As these are made to order, you can have almost any size and any colour canopy, with or with a valance and a choice of bases.

- **Large stocks held for immediate delivery**
- **Wide range of colours and replacement canopies**
- **Economic solutions to Giant Parasols**
- **Bespoke options built to customer specifications**
- **Free standing or in-ground base options**

Salisbury Cream

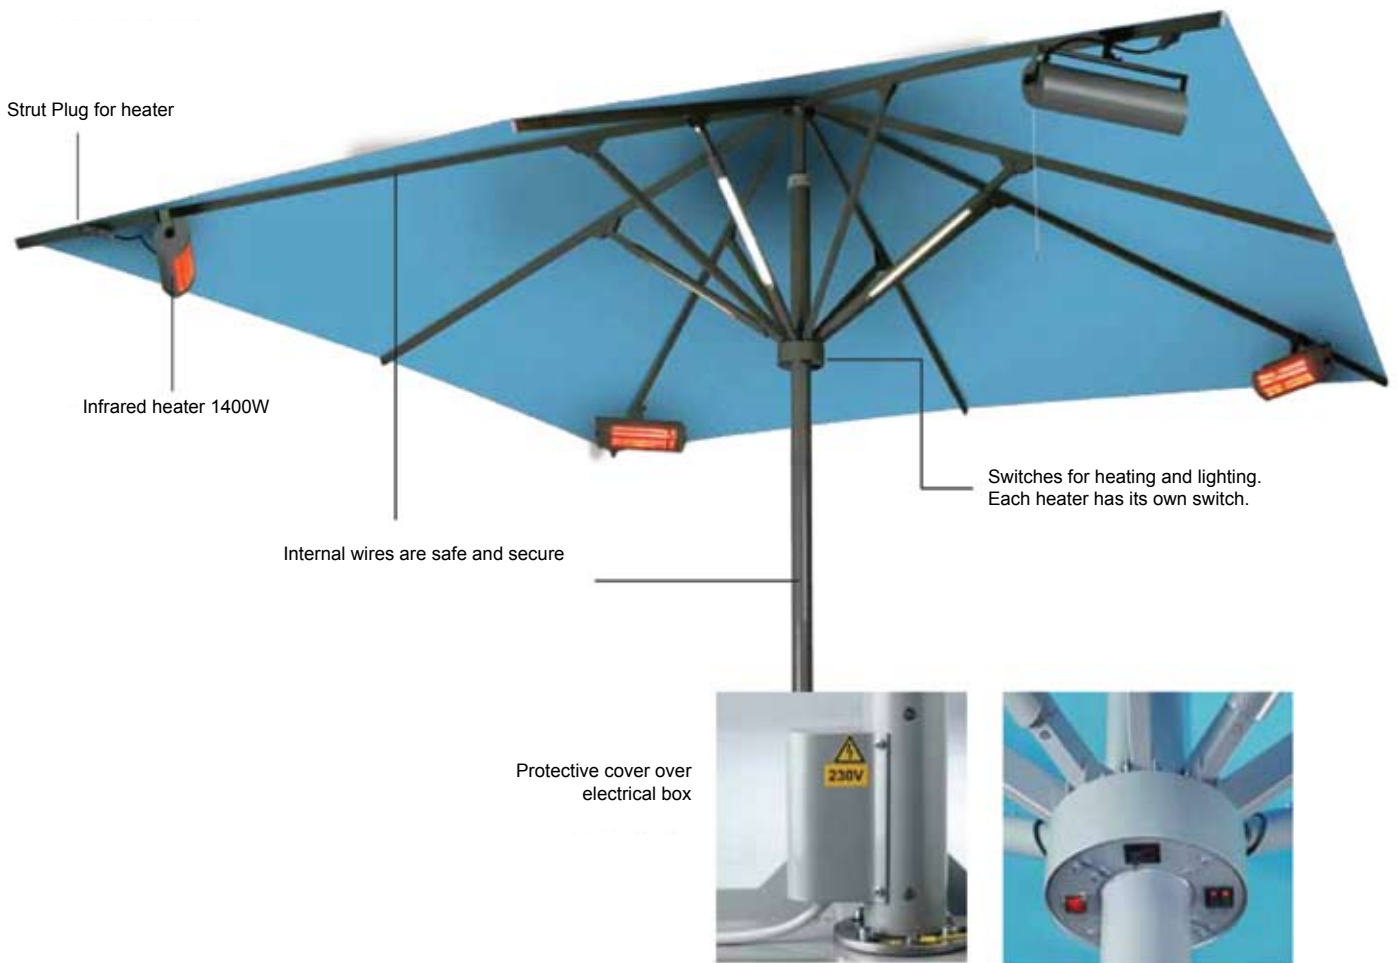

Eden offer both the Salisbury Giant Umbrella at 4m Square and also the Catterick Giant Umbrella at 5m Octagonal.

These Giant Umbrellas are a great 'off the shelf' product that offer fantastic value for money and are ready for immediate delivery.

Both the Salisbury and the Catterick come with a cross base to be slab filled as standard but we also offer an in-ground sleeve for permanent fixing.

Replacement canopies and covers are available from stock.

Big Ben & Samara

Eden also offer a bespoke Giant Umbrella option with our German manufactured Big Ben and Samara.

Both of these Umbrellas offer the finest in European engineering and both carry a 5 year warrantee against manufacturing defects.

The Big Ben and Samara are operated via crank handle and their telescopic system means that the umbrellas can be lowered and closed above standard table height.

There is a wide range of colours and canopy options with screen printing an additional option.

The Samara has a 50mm extruded aluminium mast with 30x15mm struts and is available in sizes from 2.5x2.5m Square up to 5.5m Round.

The larger Big Ben has an 84mm x 5mm thick mast with 40x20mm struts. This model is available from 3mx3m Square to 6m Round.

Choice of base options for both Umbrellas.
