

PARISIAN CAFÉ

Parisian Cafés serve as a centre of social and culinary life in Paris. Having been around since the 17th Century, they are meeting places, hubs and social rendezvous points. Typical Paris Cafés are not just Coffee Shops. They generally offer a full restaurant service with wines and beers accompanying the stable coffees and cakes.

We have a range of furniture designed to help you create the ambiance of these long established cafés. French style furniture is simple and classic yet stylish.
