

TABLE TOPS SOLID WOOD & VENEER

The timeless, natural, classic look of a solid ash table top really is a sight to behold. In our opinion there is no better material for a table top in the market. Our solid wood table tops are UK manufactured to our customers' requirements. We are able to use Oak or Beech, but Ash is the wood we always recommend for its grain, looks and stability. We stain and polish all tops in house through our spray shop, finishing the tops with several layer of a matt lacquer for aesthetic and practical purposes.

If the look of a solid table top is what you like but your budget does not, we are able to supply ash veneered tops at a cheaper price. Again, UK manufactured in the same factory, these give the appearance of the solid wood. As with a number of table tops, veneers have come a long way over the years and are hard to differentiate form a solid top to the untrained eye.

- **Commercial quality**
- **Strong and sturdy**
- **UK manufactured in any shape or size**
- **Stained and polished to your requirement**
- **Range of thickness to give 'chunky' look**

Solid Ash

Rustic Pine Tops
 32mm Pine tops in a rustic finish
 60,75,90 or 120cm Dia
 60x60, 70x70, 80x80 or 90x90cm Square
 120x70 or 180x70cm Rectangular

Ash Veneered

Pine / Redwood

Standard Wood Finishes

These are our standard wood finishes although any colour can be matched to and tinted to suit your exact specifications.

As standard, and unless specified, we use an Acid Catalyst Clear Lacquer with a 20% sheen. This gives a tough matt finish which complies with BS6250. If a higher sheen / shine is required we can use a higher percentage lacquer if requested.

NEW FOR 2020 - BRUNEL & BARLOW TABLETOPS

The Brunel is an oak tabletop with a choice of edges in Polished Steel, Copper or Solid Oak.

The Barlow is similar with a Parquet Design Solid Oak top.

Eden Furniture manufacture both the Brunel and the Barlow Tabletops so we can customise the tops to any square or rectangular sizes and stain and polish the oak to suit any customers requirements.

NEW FOR 2020 - CHAMFERED EDGE TABLETOPS

In addition to the standard square edge on our Solid Ash Tabletops, we now offer an attractive Chamfered Edge.

The Chamfered Edge gives a sleek, compact look with the impression of a modern thinner tabletop being used.

All tops are UK manufactured to order and can be stained and polished to any wood colour or even a painted finish
